Experience

Web Developer (Full-time)

May 2022 - Present

Fraser Health Authority | Surrey, B.C

- Taking a leadership role in collaborating with contractors to develop a healthcare application focused on tracking patients awaiting admission to tertiary programs, optimizing the patient management process and ensuring efficient coordination of care
- Working closely with the Executive Director in identifying and pursuing prestigious analytics and innovative technology awards, aiming to achieve national recognition for our organization's exceptional contributions in these domains
- Contributing to the development of a secure login page for a healthcare application utilizing MSAL (Microsoft Authentication Library) and Bootstrap in a React framework
- Developed a highly functional PowerApps application that facilitates the scheduling and tracking of employees' time off, effectively optimizing workforce availability and coverage management within the department

Web Developer (Co-op Program)

Sep 2021 - Apr 2022

Fraser Health Authority | Surrey, B.C

- Leveraged Agile methodology to drive continuous improvement and effectively manage project organization
- Ensured the reliability and functionality of new or enhanced features through comprehensive testing, promptly resolving bugs and issues
- Assisted in development of new features in a healthcare application using Visual Studio IDE and ASP.NET MVC framework, delivering effective solutions to address critical industry requirements
- Cultivated strong relationships and fostered exceptional collaboration among team members

High School Tutor

Jan 2018 - Aug 2021

Simon Fraser University | Burnaby, B.C

- Collaborated closely with a team of three tutors to provide comprehensive support to students, helping them gain a deeper understanding of targeted weak areas within specific subjects or the subject as a whole
- Took charge of planning and orchestrating engaging literacy and numeracy activities for a group of up to 20 students, fostering their academic growth and inspiring students to learn
